

CHATEAU DE CAMPUGET

Since 1942, our sole aim has been to produce Rhône Valley Grands Vins, respecting the heritage of our soil and our identity. The round Rhône stones, the Southern sun, the Mistral winds and the Syrah and Grenache grapes are the basic elements which form the identity of Campuget.

The Vineyard is situated 15 km South of Nîmes near the village of Manduel, right in the heart of the 'Appellation d'Origine Protégée' Costières de Nîmes. It's principal characteristic is it's soil formed of 'gress', an accumulation of rounded pebbles that have been rolled by many overflows of the Rhône river thousands of years ago...

These pebbles permits the vines to grow in the best possible conditions and thanks to this natural soil filter, the vine's roots can easily draw the necessary water for their growth.

The vines also benefit from the Mediterranean sunshine, which bring the grapes to perfect maturity and allows them to be picked at maximum phenolic maturity in early September.

2016 VINTAGE REPORT:

An Ideal Harvest in the Southern Rhône, So far, 2016 looks like a classic vintage, with most growers favoring it over 2015. Some coulure on Grenache, along with drought conditions that produced smaller berries with less juice meant lower yields, but other than that there was little to be concerned over. - Wine Spectator
